

SLP-Assistant Credential Eligibility Summary

University	Degree Title	Clinical Hours Completed	SLP-A Registration Eligibility
Missouri State University	BS in Communication Sciences and Disorders/ Speech-Language Pathology	NO	Transcript showing degree in Speech-Language Pathology is all that is needed to obtain SLP-A registration. Documentation of clinical hours is not required.
Fontbonne University	BS in Speech-Language Pathology	YES	
University of Central Missouri	BS in Speech-Language Pathology	YES	
Maryville University	BS in Communication Sciences/Disorders	YES	Transcript needs to document at least twenty-one (21) semester hours in speech-language pathology and/or audiology that address the speech pathology content areas of anatomy and physiology, phonetics, speech-language development, speech-language disorders including both developmental and acquired, and clinical methods. It is assumed these hours included in all listed undergraduate programs. Documentation of at least 25 hours of observation and at least 25 hours of assisting or practicum in the area of speech-language pathology is also needed. These hours can be part of the undergraduate program documented by transcript or acquired in a work setting. If the required observation or practicum hours are not obtained through a university program they can be provided by a school/provider and documented by attestation form .
University of Missouri	Bachelor of Health Science (BHS) in Speech, Language, and Hearing Sciences	All undergraduate students complete 25 hours of observation. Practicum hours are available as elective, not required.	
Rockhurst University	BS in Communication Sciences and Disorders	All undergraduate students complete 25 hours of observation. Practicum opportunities specific to the role of SLP-A can be provided if requested and approved.	
Southeast Missouri State University	BS in Communication Sciences and Disorders	All undergraduate students complete 25 hours of observation. Practicum opportunities can be provided if requested.	
Truman State	BA (or BS) in Communication Disorders	Both observing and practicum hours are offered but do not necessarily meet the requirements for SLP-A registration.	
St. Louis University	BS in Communication Sciences and Disorders	Observation and practicum hours are available but not required as part of the undergraduate program.
