The countdown to our 2023 MSHA Convention has begun and we are beyond excited to see you in April! The 2023 Convention (It's our 64th convention!) is designed to bring us to the heart of our purpose: to learn from the vast and robust **contributions** of our speakers, to **collaborate** and work together with our professional colleagues, and to **connect** in relationships with peers in both work-life and social-life!

While there's no denying that the last few years have brought about significant changes, the MSHA Annual Convention has continued to be an engaging and valuable resource for all SLPs and Audiology professionals and this year's convention will be amazing!! It has been truly inspiring to watch the Convention Planning Team work together to bring you presentations that will check all the boxes for our professional needs, including sessions for updated ASHA requirements in diversity, equity and inclusion, as well as ethics and supervision. MSHA continues to strive to bring you the best value and professional development available!

I want to personally invite you to attend the President's Luncheon on Saturday, April 15th where we will once again include the presentations of MSHA awards that honor our association's outstanding students, clinicians, administrators, 2023 Ambassadors, and MSHA's Honors of the Association.

I'm happy and thrilled and SUPER excited to be able to have Stacy Julian as our keynote speaker this year! Stacy is a 'life-enthusiast' that will not only entertain us but also show us how to have **Exactly Enough Time** for our priorities in both our professional and personal lives!

Come to the 2023 MSHA Convention and join us as we **CONTRIBUTE, COLLABORATE and CONNECT!!**
